LIBRARIAN'S REPORT

There were 36 books purchased in 1949. Including four books of non-fiction. As you all must know, the cost of books has increased much in the last few years. Through the past year we received from the Gilford Library a gift of about 600 books for which many thanks are due. We also have received several books from friends. We are missing the Bookmobile which used to come to our Library every two months — sent from the Public Library Commission. It still comes to our Central School.

The New Hampshire Troubadour "singing praises of New Hampshire" still comes to us every month through the kindness of the State Planning and Development Commission of Concord, N. H. This little booklet is much enjoyed. The usual books have been sent to us from the State.

We have now only one branch library in town.

Mrs. Mabel Stevens is still in charge at "Horse Corner."

Mrs. Stevens receives \$3.00 for her services as Librarian. I have received from Mr. H. F. Parker, Trustee \$72.00 for purchase of books.

At this time I would like to thank Mr. Parker for always having the Library warm for me.

FOREST FIRES — OUR MOST SHAMEFUL WASTE

Everyone apparently fears fire but too many are careless with it. This is particularly true of fires in and near woodlands. Official figures show that more than 98 percent of all forest fires result from human carelessness and can be prevented. Consequently, we may say "Forest Fires are our most shameful waste."

Annual forest fire losses are tremendous and their effects far reaching. Such fires destroy the raw products of the forests, the protection forests provide for game and the supply of ground water. They upset local economies by drawing men from gainful employment and requiring the expenditure of public funds to extinguish them.

Our forest fire organization is doing a good job in keeping the size of fires small but the number of fires is increasing. In 1949 there were 100 more fires in New Hampshire than in 1948, but they burned 500 acres less. For the warden and his deputies to do the job they are capable of, they must have the cooperation of the public — YOU!

The primary objective of all fire fighters is PREVENTION — fire stoppage. This is the goal toward which your local forest fire warden and his deputies are constantly working. It can be achieved ONLY if YOU and YOU and YOU cooperate with them. It is worth YOUR effort and can be accomplished by:

1. Being careful with fire in or near woodland, being particularly careful with matches and cigarettes.

2. Securing the required written permit from the warden when the ground is not covered with snow.
3. Insisting that others be careful and comply with burning requirements.
4. Calling the warden promptly when fire is detected and aiding him to extinguish it.

Let's reduce the number of forest fires and eliminate our most shameful waste.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and the citizens of the Chichester School District.

I herewith submit my annual report as your Superintendent of Schools:

It is a pleasure to report that the new Chichester Central School is now in operation and is complete except for minor details. We are indeed fortunate to have a group of teachers who are so deeply interested in the success of the new Chichester Central School. The people of Chichester may well be proud of their new building.,

The teachers are carrying out the instructional program in accordance with the high standards set up by the State Board of Education. The lighting, heating, ventilation, sanitation, and other working conditions are ideal. The availability of ample playground space makes it possible for the children to engage in numerous types of physical activities.

The new cafeteria program is providing a well-balanced, hot lunch for all the children. This program has operated successfully under the management of Mrs. Gladys Tingloff.

No building project seems to be completed in one single year. I am sure the people of Chichester will soon want to install proper drive-ways and sidewalks to the new building. Until this is done there will continue to be a problem in regard to tracking mud and sand into the building. This is an ever existent problem. However, the installation of a driveway and walks will help to keep the building clean. I also believe that the committee will eventually wish to install some playground equipment on the grounds of the new build-

ing. It is sometimes possible to erect swings, teeterboards and slides with volunteer labor at a considerable saving for the district. Since such equipment gets extremely hard usage, it is well to install the best possible equipment, whether it be homemade or factory made. I would suggest that the walks and drives be acted on this year if possible, and the playground equipment be acted upon in the next annual budget.

The budget for the school year 1950-51 indicates some increase over 1949-50. In making comparison, it should be remembered that the budget printed in the Town Report was increased by \$960.00 for tuition and \$612.00 for insurance. This made a total of \$24,019.00 appropriated for 1949-50. The budget presented by the school committee this year is \$25,519.32, \$1,200.00 of this increase is for tuition alone. This increase is in part due to tuition increases by neighboring schools as well as due to a slight increase in the number of children going to high school.

Another small increase is due to the increase in salaries requested for the teachers. Beginning teachers graduating from Keene Teachers College and Plymouth Teachers College last year averaged \$2,280.00. The teachers on our staff in Chichester are at present working in line with what is happening throughout the state.

I want to thank the School Board, the teachers and the voters of the Chichester School District for their cooperation during this school year. We must all work together to secure the best education for our children. I deeply appreciate the support and cooperation of the teachers, school board and people of Chichester.

Respectfully submitted,
